

# Duravit's D-Neo Offers Cost Effective Range

D-Neo, designed by Belgian designer Bertrand Lejoly, revolutionises the entry-level bathroom for Duravit. Offered at an attractive price point, the series brings the brand's quality and design to a wider audience.

The first bathroom range by Lejoly, D-Neo is a testament to his extraordinary instinct for interior design. Offering washbasins, furniture and bathtubs, it leads with a striking, engaging and timeless design language.

POP

Offering Duravit quality, design and technology, D-Neo was designed to meet the needs of daily life, no matter where we are in our lifecycle. D-Neo allows for effortless customisation of any bathroom. The components hold their own in rooms of any size and layout. Their sleek forms create the space into which individual

MONOCHROME

style can unfold, with design elements that represent much more than functionality. The D-Neo range is available in four different styles: Boho, Pop, Monochrome and Minimal.

## Basins

The versatility of the series is demonstrated by the range of available washbasins: from furniture and built-in variants to handrinse and above-counter basins. D-Neo basins feature a striking, all-round rim. Above-counter basins are offered in round or oval designs. The vanity solutions offer ample storage. Easily personalised with drawers, open shelves and interior systems, D-Neo vanities and matching cabinets offer practical storage for all bathroom sizes and functional requirements.

Echoing the clean lines of the furniture designs, an ergonomically shaped handle adds visual intrigue across drawers and cabinets in the series. The handle marries the linearity of the furniture while mimicking the curve of the console panels

MINIMAL

and washbasins. Available in widths from 510mm to 1,200 mm.

## Toilets

The D-Neo wall-mounted toilet features Duravit Rimless® technology, which achieves perfect flushing results with just 3 litres / 4.5 litres per flush.

## Baths

A further highlight of the D-Neo series is the freestanding DuraSolid® bathtub. Reminiscent in design to the above-counter washbasins in the collection, the freestanding bathtub is just 1,600mm in length, making it an ideal choice for compact spaces.

"D-Neo is an expression of sublime simplicity, reflecting my interest in and respect for the history of interior design. In access, design is powerful. The linear, geometric and calm language of D-Neo for Duravit offers access to design that is clear, versatile and hopefully inspiring. This is Duravit design for everyday, for every lifestyle for everyone," concludes Lejoly.
